CSC 225: Programming in R

Syllabus

Lecture Hours/Lab Hours/Credits: 1/2/2

Prerequisites: MAT 103 and (CSC 111 or CIS 110)

Catalog Description

This course offers extensive example-based instruction covering practical issues for statistical programming in R. This project intensive course explores R programming and use of R for data analysis. All lecture topics are supported by a lab component.

Textbook and Course Materials

It is the responsibility of the student to confirm with the bookstore and/or their instructor the textbook, handbook, and any other materials required for their specific course and section.

Evaluation Assessment

Online Proctoring

All courses offered at RCSJ, whether they are web-enhanced, hybrid, or fully online, may include assessments that make use of Online Proctoring. To find out more about Online Proctoring, and to learn about the minimum technical requirements, visit rcsj.edu/elearning/online-proctoring.

Grading Distribution

Grading to be determined by individual instructors.

- Exams
- Assignments
- Projects

Grading

The grading scale for each course and section will be determined by the instructor and distributed the first day of class.

Rowan College of South Jersey Core Competencies

(Based on the NJCCC General Education Foundation - August 15, 2007; Revised 2011; Adopted 2014)

This comprehensive list reflects the core competencies that are essential for all RCSJ graduates; however, each program varies regarding competencies required for a specific degree. Critical thinking is embedded in all courses, while teamwork and personal skills are embedded in many courses.

1. **Written and Oral Communication:** Students will communicate effectively in both speech and writing.
2. **Quantitative Knowledge and Skills:** Students will use appropriate mathematical and statistical concepts and operations to interpret data and to solve problems
3. **Scientific Knowledge and Reasoning:** Students will use the scientific method of inquiry, through the acquisition of scientific knowledge.
4. **Technological Competency:** Students will use computer systems or other appropriate forms of technology to achieve educational and personal goals
5. **Society and Human Behavior:** Students will use social science theories and concepts to analyze human behavior and social and political institutions and to act as responsible citizens.
6. **Humanistic Perspective:** Students will analyze works in the fields of art, history, music, or theater; literature; philosophy and/or religious studies; and/or will gain competence in the use of a foreign language
7. **Historical Perspective:** Students will understand historical events and movements in World, Western, non-Western or American societies and assess their subsequent significance.
8. **Global and Cultural Awareness:** Students will understand the importance of a global perspective and culturally diverse peoples.
9. **Ethical Reasoning and Action:** Students will understand ethical issues and situations.
10. **Information Literacy:** Students will address an information need by locating, evaluating, and effectively using information.

CSC 225 Core Competencies

This course focuses on two of RCSJ's Core Competencies:

- Quantitative Knowledge and Skills
- Technological Competency

Student Learning Outcomes: Programming in R

Successful completion of CSC 225 will help students:	RCSJ Core Competencies	Evaluation / Assessment (Additional means of evaluation may be included by individual instructors)
To understand the fundamental syntax of R programming for conducting meaningful inquiry and analysis.	Quantitative Knowledge and Skills Technological Competency	Exams, Assignments, Projects
To import, prepare and query a variety of data formats for analysis.	Quantitative Knowledge and Skills Technological Competency	Exams, Assignments, Projects
To apply analytical programming language concepts by writing R programs through examples.	Quantitative Knowledge and Skills Technological Competency	Exams, Assignments, Projects
To develop students' abilities to analyze and visualize data using R packages.	Quantitative Knowledge and Skills Technological Competency	Exams, Assignments, Projects

Topical Outline

- Applying Programming Language Concepts such as data types, iteration, control structures, functions, and Boolean operators
- Accessing R packages
- Writing R functions
- Reading R data
- Importing data into R and R Studio
- Analyze data sets in R and present findings
- Visualize data attributes using ggplot2 and other R packages.

Affirmative Action Statement

The Board of Trustees is committed to providing a work and academic environment that maintains and promotes affirmative action and equal opportunity for all employees and students without discrimination on the basis of certain enumerated and protected categories. These categories are race, creed (religion), color, national origin, nationality, ancestry, age, sex (including pregnancy and sexual harassment), marital status, domestic partnership or civil union status, affectional or sexual orientation, gender identity or expression, atypical hereditary cellular or blood trait, genetic information, liability for military service, or mental or physical disability, including AIDS and HIV related illnesses.
